

Instructions for Submitting Petri Dishes for Laboratory Analysis

1. Include a check payable to **Evviva Sciences, LLC** for the total cost of analysis. The fee is **\$45 per petri dish**. For example, submitting 3 petri dishes would total **\$135**.
2. Secure the lid of each petri dish with two pieces of transparent tape (see examples below). Label each dish with the **date**, a **sample ID**, and a **brief description**. You may use a Sharpie directly on the lid for labeling.

Apply **transparent (i.e. scotch tape)** to hold the lid closed

Label petri dish with **date & description**

3. Place each petri dish in a **separate** zipper bag (provided in your kit). Do **not** place multiple dishes in one bag, as this may lead to **cross-contamination**.
4. Complete the **chain of custody form** found on the last page of this document. Print and include it in your shipment. Be sure to include your **email address** to receive your results. Example:

E-mail : _____ ← Remember to Include Your Email 5 Days

Sample ID	Sample Date	Sample Description/Location	Sample Type**	Volume	Analysis Type***	Sampling Comments
Sample #1	7/30/25	Living Room				
Sample #2	7/30/25	Bathroom				

5. Mail the following to the address below. Your report will be ready 3-5 business days after we get your samples.

- Check payable to **Evviva Sciences, LLC** (\$45 per petri dish)
- Petri dishes in sealed bags
- Completed chain of custody form (last page of this document)

Please send all items to:

Evviva Sciences, LLC
3273 Whipple Road
Union City, CA 94587

IMPORTANT NOTES-PLEASE READ:

- When you send your dishes to our lab, we recommend using a shipping method with tracking (USPS, UPS, or FedEx). Most customers use a small box (e.g. reusing the box of this kit) or a padded envelope.
- Customers are responsible for complying with all shipping regulations and properly packaging samples.
- This kit is not intended for medical or health purposes. Consult a physician for health concerns.
- This kit is not a substitute for a professional in-person mold inspection. Results may provide helpful preliminary information about molds present but should be confirmed by a qualified mold inspector.

NEED RESULTS FASTER?
UPGRADE TO EXPEDITED
LABORATORY ANALYSIS!

- Priority laboratory processing
- Results typically delivered within **1 BUSINESS DAY** after your sample is received by our laboratory
- Additional fee: **\$15 PER DISH**
